

Broyles Up-Date

Our teen's "overnighter" with Igreja Batista da Fé (Faith Baptist) from Sorocaba went very well. Saturday the group went to a local nursing home to sing and play their instruments and then Pr. Douglas brought a devotional. Benjamin and Elizabeth sang a duet with Lydia accompanying them on the keyboard. Several of the people cried during the music. The teens were able to sing in three different areas of the establishment. The two girls in the forefront of the picture in wheel chairs have expressed an interest in attending services at the church. Pray that we will be able to arrange this.

Thanks to all who prayed for Terry while he was in the States. The Lord blessed him with several opportunities to witness and edify believers. He preached at two of our supporting churches and also at the funeral for his sister. Terry stayed with Wendy's parents, her sister, and Jonathan, our son. Micah and Philip were able to be there for one of the weekends and Micah returned for Thanksgiving with his Dad.

An interesting thing happened while Terry was downtown getting an alarm put on our car. Leaving the car at the shop, he took the boys to get something to eat at a stand on the next block. They met a man and began to converse with the intent to share the gospel. As it came to light that Terry was from the church in Medeiros (the church neighborhood), astonished he said, "This must be of God!" In explanation he related that Tiago, the man Terry has a Bible study with each week in his barbershop, visited him the day before and invited him to church! Please pray for Marcos to come to church and accept a Bible study.

Josiah just finished witnessing to a boy from our neighborhood. We are grateful that our children are learning to share the gospel and putting into practice what they know! Pray for Josiah to continue this good work and for Tales to be saved.
